The Wisdom of Jefferson

John Kennedy once said to an assembled group of scholars in the White House, "I think this is the most extraordinary collection of talent, of human knowledge, that has ever been gathered at the White House – with the possible exception of when Thomas Jefferson dined alone."

These Thomas Jefferson quotes below could prove his point:
 When we get piled upon one another in large cities, as in Europe, we shall become as corrupt as Europe.
 The democracy will cease to exist when you take away from those who are willing to work and give it to those who would not.
 I predict future happiness for Americans, if they can prevent the government from wasting the labors of the people under the pretense of taking care of them.
 Very interesting quote: In light of the present financial crisis, it's interesting to read what Thomas Jefferson said in 1802: "Banking institutions are more dangerous to our liberties than standing armies. If the American people ever allow private banks to control the issue of their currency, first by inflation, then by deflation, the banks and corporations that will grow up around the banks will deprive the people of all property until their children wake-up homeless on the continent their fathers conquered."
